LinkedIn: <https://linkedin.com/in/mahbub06ru>

Portfolio: <https://sites.google.com/view/portfolioofmahbub/>

GitHub: <https://github.com/mahbub06ru>, <https://bitbucket.org/mahbub06ru>

Career Objective:

Seeking a **senior-level** role as a **Mobile App Developer** with **12+ years of experience in Flutter and Native Android development**. I aim to leverage my expertise in building high-quality, scalable, and user-friendly mobile applications while collaborating closely with UI/UX designers and backend teams. Open to **backend development responsibilities**, with the goal of progressing into **Full Stack or Technical Leadership** roles.

Professional Summary:

Experienced with **8+ years in Flutter** and **4+ years in Native Android**, with a proven track record of deploying **20+ apps across Google Play, App Store, Huawei App Gallery, and Amazon Appstore**. Experienced in the **end-to-end app lifecycle**—from architecture and development to deployment, monitoring, and maintenance. Skilled in using **Crashlytics and Analytics tools** to track user behavior and optimize app performance. Adept at **mentoring junior developers**, collaborating with cross-functional teams, and ensuring delivery of **secure, high-performance, and user-centric applications** within agile environments. Experienced to work with AI agent with CLI tools like **Claude, Cursor, Gemini, ChatGPT, DeepSeek** etc.

Technical Skills & Expertise:

Flutter (8+ Years):

- **Cross-platform App Development:** Android & iOS using Flutter SDK, Android Studio, VS Code, XCode
- **Architecture & State Management:** Clean Architecture, BLoC, GetX, Provider, Riverpod, Modular Architecture, MVP, Dependency Injection (Get_it)
- **API & Network:** HTTP, Dio, Retrofit, WebSocket, RESTful APIs, GraphQL, API optimization, pagination, caching, error handling
- **Firebase & Cloud Integration:** Analytics, Crashlytics, FCM, Push Notifications, Cloud Messaging, Performance Monitoring
- **Navigation & Routing:** GoRouter, Navigator 2.0
- **Platform Services & Integrations:** Deep Linking, In-App Purchases, Google Maps, Google/Apple/Microsoft/Facebook SSO, Payment Gateways, Platform Channels
- **Persistent Storage:** Drift, Floor, Hive, GetStorage, SQLite, Offline-first architecture
- **Animations & UI:** Custom Widgets, Advanced Animations, Material Design, FlutterFlow
- **Testing & Debugging:** Unit, Widget & Integration Testing (Mocktail, Espresso), Performance Tuning
- **CI/CD & Deployment:** App Flavors, GitHub Actions, GitLab CI, Bitrise, Fastlane (Android/iOS automation), Play Store, App Store, Huawei AppGallery, Amazon Appstore
- **Security:** Encryption, Secure Storage, OAuth2, JWT, Biometric Authentication (Fingerprint, Face ID), App Hardening, HTTPS/SSL, Keychain/Keystore, Root/Jailbreak Detection
- **FinTech & Payment Integration:** bKash, Nagad, Stripe, SSLCommerz, wallet systems, transaction flow, QR code payments (EMV), OTP/SMS verification
- **Version Control & Collaboration:** Git (GitHub, GitLab, Bitbucket), Agile/Scrum, Jira
- **Performance Optimization:** App size reduction, memory optimization, frame rendering improvement, lazy loading
- **Code Quality & Maintainability:** Code review, reusable components, modular design, scalable architecture
- **System Design & Analysis:** Requirement analysis, scalable system design, large-scale application development

Native Android Development (4+ Years):

- **Languages & Tools:** Java, Kotlin, C/C++ (NDK), Android Studio
- **Architectures:** MVVM, MVC, MVP, Clean MVVM, Jetpack Libraries
- **Android Core:** Android SDK, NDK, AndroidX, Gradle, ProGuard, R8

- **Jetpack Components:** Lifecycle, ViewModel, LiveData, Navigation, Paging 3, WorkManager
- **UI & UX:** XML Layouts, Jetpack Compose, RecyclerView, ViewBinding, DataBinding, Custom UI Components, Android UI Design
- **Concurrency:** Coroutines, Flow, Threading, Multithreading
- **Data & Storage:** Room, SQLite, Offline Caching
- **Networking & Libraries:** Retrofit, Gson, Glide, RxJava/RxKotlin, Dagger/Hilt, Logging Interceptor
- **Device & Hardware Integration:** Bluetooth LE, NFC, Sensors, Thermal/Label Printer SDKs, IoT Integration
- **Other Features:** Localization, Notifications, Background Services, Maps Integration, Payment Gateway Integration

Employment History (On-Site):

1. Intermediate Engineer/Senior Mobile App Developer (Flutter)

December 2024 – Present

Hi Sun FinTech Global Ltd., hisunglobal.com / Shenzhen, China & Wan Chai, Hong Kong

- Designed and implemented 40+ modular banking and wallet features including account management, add money, cash-out, virtual & bank cards, QR payments, scheduled transfers, bill payments, and union transfers, achieving fully end-to-end transaction flows with secure OTP/SMS verification.
- Optimized API and network handling across multiple high-traffic endpoints (REST & WebSocket), improving transaction processing speed by 45% and reducing failed requests in critical payment and wallet modules.
- Applied Firebase Analytics, Crashlytics, FCM, and Performance Monitoring across all Flutter modules, reducing crash detection and resolution time by 50% and accelerating hotfix releases.
- Improved app performance and responsiveness through lazy loading, caching strategies, memory optimization, and offline-first architecture across all high-data modules, enhancing user experience for transaction-heavy features.

Flagship Application:

1. **Blinks App:** City Bank Blinks is a comprehensive e-wallet app that lets users manage accounts, add and send money, pay bills, recharge mobile phones, make QR and scheduled payments, and use virtual or bank cards. It supports beneficiary management, Union transfers, currency exchange, referral rewards, and transaction segmentation, while offering secure features like biometric authentication, face recognition, SMS verification, and customizable transaction limits for a seamless and safe digital banking experience.
2. **Merchandise App:** City Bank Mas Merchant app enables merchants to manage their business efficiently, offering features like merchant information, transaction statements, top customers, transfer limits, notifications, QR code payments, refund tracking, support, transaction history, favorites, nominee management, profile settings, payment preferences, and seamless fund transfers.

2. Senior Mobile App Developer (Flutter & Native Android)

September 2022 – November 2024

Powerly, [GoConvey.com](https://goconvey.com) / 410 17th St, Suite 1375, Denver, Colorado 80202, **United States**.

- Analyzed API metrics across 100+ production endpoints while leading Flutter and Native Android API integrations, identifying high-traffic APIs by client type (Mobile, CSR, Consumer Portal), optimizing request handling and improving backend visibility by 40%.
- Reduced critical production issues by 35% through structured regression testing, systematic Flutter & Android bug fixing, performance optimization, and pre-release validation workflows before Play Store and App Store deployments.
- Applied Firebase Performance Monitoring and analytics tracking across Flutter and Native Android applications, improving crash detection turnaround time by 50%, accelerating hotfix releases, and ensuring stable production deployments.

Flagship Application:

1. **HydroHome by BC Hydra (Canada):** A free app that lets residential customers track, understand, and manage their home electricity use with detailed insights and optional real-time smart device control.

3. Senior Mobile App Developer (Flutter)

May 2021 – August 2022

AtBJobs Ltd. atb-jobs.com / Parent ATB Lab, Japan / MMK Akash Tower, Gulshan 2, Dhaka

- Lead full-cycle development and deployment of the flagship atB Jobs App on 4 platforms.
- Continuously analyze user behavior to enhance engagement and retention.
- Cut crash and uninstall rates by over 70% via optimization and Firebase monitoring.
- Improved LCP & FCP metrics through smarter API handling and UI tuning.

Flagship Application:

1. **AtB Jobs App (Version 1 & 2):** atB Jobs is a job matching platform where job seekers and recruiters connect. This application is designed for candidates specifically in Bangladesh.

4. Senior Software Engineer (Flutter & Laravel)

January 2017 – April 2020

ACI Limited, aci-bd.com / MIS Dept., Head office, ACI Centre 245, Tejgaon Industrial area, Dhaka 1208

- Deployed 10+ in-house hybrid solutions with shared mobile-web architecture into internal app store.
- Engineered responsive interfaces and secure offline-ready modules.
- Led backend integrations for sales, auditing, and workflow systems.
- Leveraged Local Storage to enhance app modularity and usability.

Key Solution (Full Stack):

- **Lions Footprint:** Geo-tracked merchandiser monitoring
- **Vision BC/Foods App:** Sales ops with push alerts and offline sync
- **PCFM:** Workflow/task management with image capture
- **Credit Audit App:** Financial reports with visualization and export
- **Other Releases:** Yamaha Riders Club, Online Bid, Animal Health platforms

Tech Stack: Flutter (GetX), Laravel, SQL Server, MySQL, Drift, Floor, SQFlite, Firebase, REST APIs

5. Software Engineer (Native Android)

February 2014 – December 2016

Initvent Consulting Services Ltd., initvent.com / 51, Sonargaon Janapath, Khan Tower, Sector 7, Uttara, Dhaka

- Presented over 5 feature-rich Android apps tailored to finance and business use.
- Collaborated UI, Backend & QA team to implement micro-ERP and microfinance apps.
- Focused on offline capability, bilingual UI (English & Burmese), and financial reporting.

Key Applications:

- **EZ2Count ERP:** Mobile-first sales & inventory manager
- **DRI AIMS:** Capacity building & fund tracking platform
- **ACE Micro Banking:** Loan/savings platform in multilingual environment
- **IMFAS Digital:** Wallet-based financial tool
- **EZ2Plan:** Business planning and modeling guide

Personal Details:

- Father: Md. Abdur Rahman
- Mother: Serina Akhter
- Address: Vill: Baliaghata, PO: Chowhodditla 6300, PS: Godagari, Dist: Rajshahi

Education:

- Master of Science (**MSc**) in **EEE**, University of Rajshahi, *CGPA: 3.00*
- Bachelor of Science (**BSc**) in **EEE**, University of Rajshahi, *CGPA: 3.19*
- **HSC** in New Govt. Degree College, Rajshahi, *CGPA: 4.80*
- **SSC** in Harimohan Govt. High School, Chapai Nawabgonj, *CGPA: 4.88*
